RE: Colbert Landfill Cleanup and Impacts on the Little Spokane River

Dear Mr. Sanderson:

Based on our discussion on August 7, 1989 regarding a client of yours interested in buying a large parcel(s) of property along the Little Spokane River, enclosed please find copies (partial) of two documents:

1. U.S. Environmental Protection Agency (EPA) Record of Decision Document, and
2. Scope of Work from Ecology/EPA/Spokane County/KeyTronic Corporation Consent Decree.

I have marked those areas which discuss discharge of treated groundwater into the Little Spokane River and the acceptable levels of contaminants which may be discharged.

My best professional judgement is that the discharge of treated water to the Little Spokane River will have little or no detrimental impacts on water quality. Of course, I can not guarantee it.

I have also included a copy of the latest Colbert Landfill Fact Sheet. If you have any further questions, please call me again at (206)438-3043. Complete copies of the Consent Decree and the Record of Decision are available for reading and/or copying at the following locations (information repositories):

Ecology Regional Office  
N. 4601 Monroe, Suite 100  
Spokane, Washington

North Spokane Library  
East 44 Hawthorn Road  
Spokane, Washington

Colbert Elementary School  
East 4526 Green Bluff Rd.  
Colbert, Washington

Sincerely,

*Mike Blum*
